

RepairMonitor

Results 2021

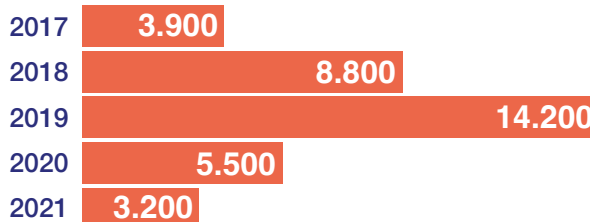

Due to COVID-19, less Repair Cafés collected data in 2021.

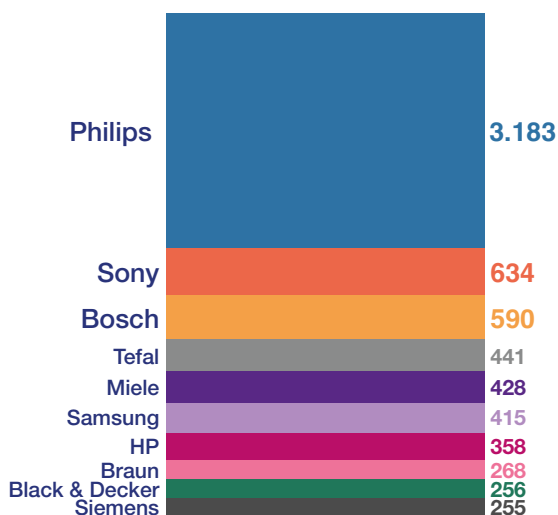

Most participants are Dutch.

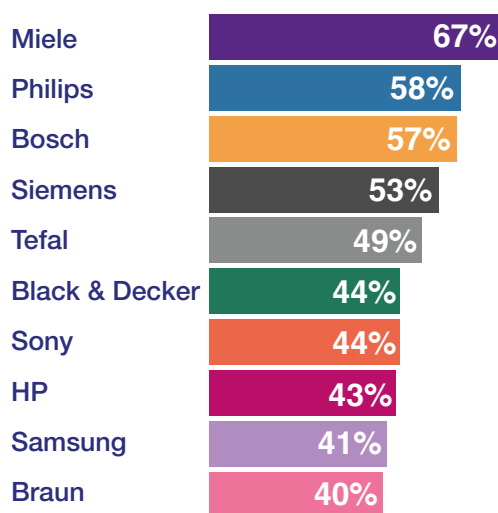

Due to the ongoing pandemic, few repairs were added in 2021

The most popular brands all concern electrical/electronic products. Philips ranks first, mainly due to the success of the Senseo coffee maker.

Of the ten most popular brands, Miele repairs (almost always vacuum cleaners) are most often successful.

RepairMonitor

Results 2021

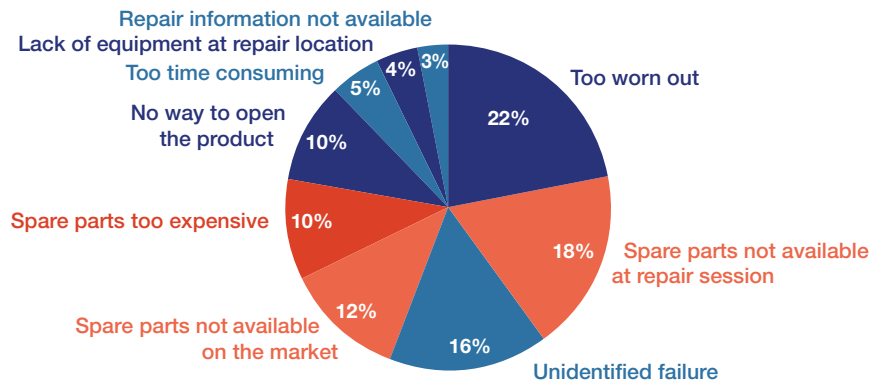

The top ten most common products have been fairly stable for years.

Of the twenty most popular products, knives are most often successfully repaired.

Many obstacles to repair are related to spare parts.

Since 2021, the RepairMonitor has offered a drop-down menu to indicate why a repair was unsuccessful. This was done for 525 of the 3,200 repairs.
