

# REPAIR CAFE

## Repair Cafe International needs your support!

Repair Cafe International Foundation is a non-profit organization with limited income. To do our work, we depend largely on donations.

Do you think a future without unnecessary waste is important? A future where neighbours help each other repair precious broken items? And where products are designed to be repairable?

Then support us with your donation! Here's what we'll do with your contribution:

- Generic **promotion for the Repair Cafe concept** at home and abroad;
- Maintain and further develop the **five-language Repaircafe.org website**;
- Keeping the **international Repair Cafe starter kit** up to date in five languages;
- Being **available daily for questions** from within the global Repair Cafe network and questions from outside;
- Maintain and further develop the **RepairMonitor**, the online tool for data collection by Repair Cafes;
- **Publish on results** of the RepairMonitor;
- **Lobbying for more repairable goods** that fit into the circular economy;
- Projects to involve **new and younger audiences** in Repair Cafe;
- Help develop **new concepts within the circular economy** that Repair Cafes can contribute to.

Transfer your contribution to us via our website:
